JBL MESH BELT

ENGINEERED · MATCHED · DELIVERED

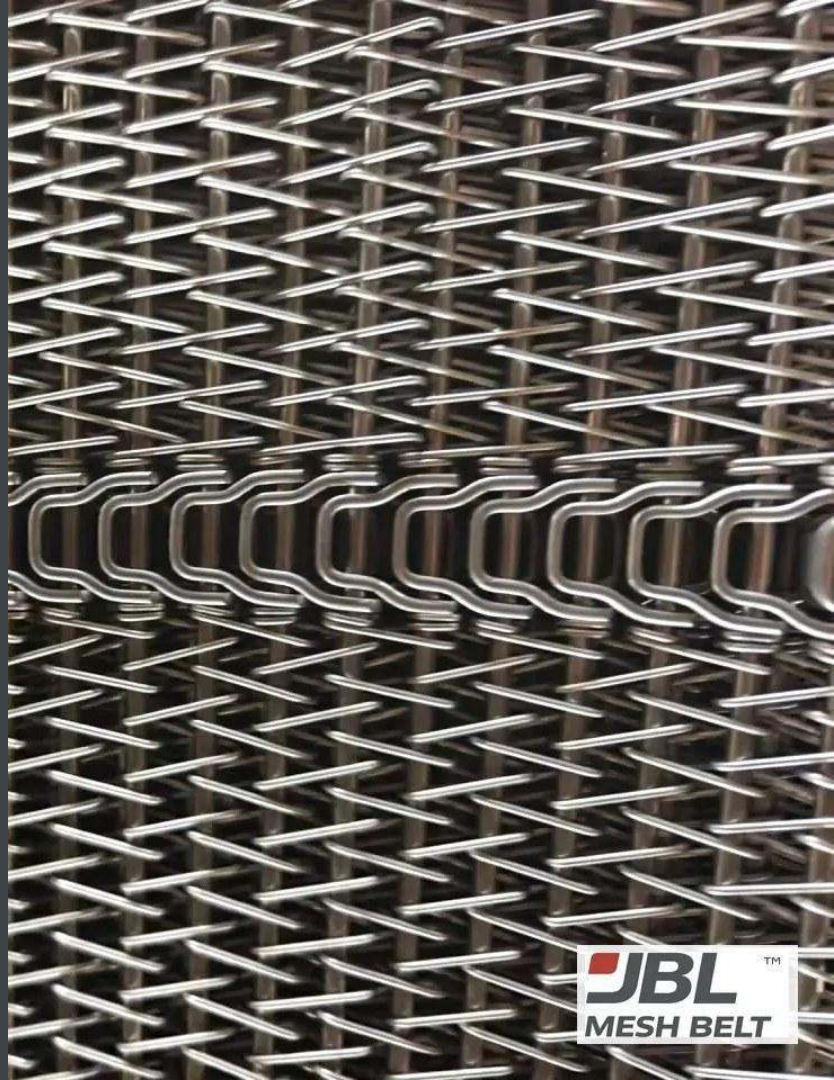

Engineering-Controlled Metal Conveyor Belt Partner

HOW WE WORK · ARRIVAL

Receiving Your Belt: Checks Before Installation

What to look at when the crates arrive — so the belt goes onto your line the way it was checked before shipment.

Crates · packing list · sections in order · spare parts · same readings as before shipment

Six checks when the crates arrive

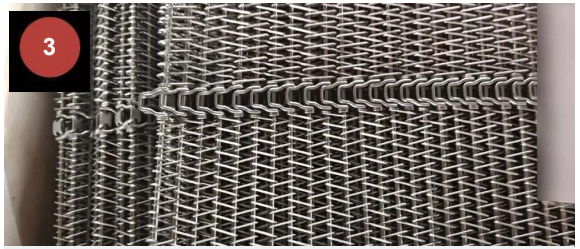

Compare with the photos sent before shipment, where available.

Crates and straps intact

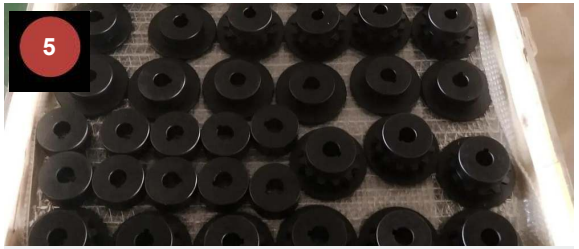

Contents against the packing list

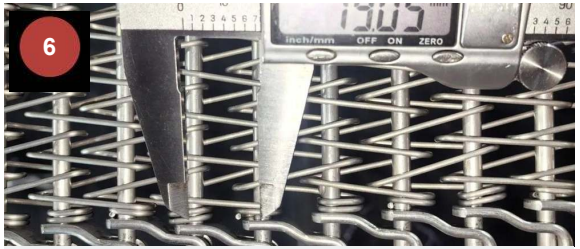

Sections numbered, arrows the same way

Spare rods and washers

Sprockets, if supplied

A reading, the same way we took it

Projects: Libya 2025, USA 2024, Malaysia 2026, Waffle cooling spiral 2026

See: Pre-Shipment Checks

What buyers ask on delivery day

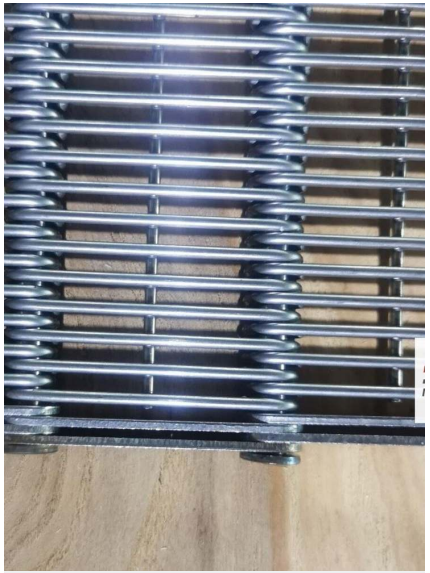

Four questions, answered on the next pages.

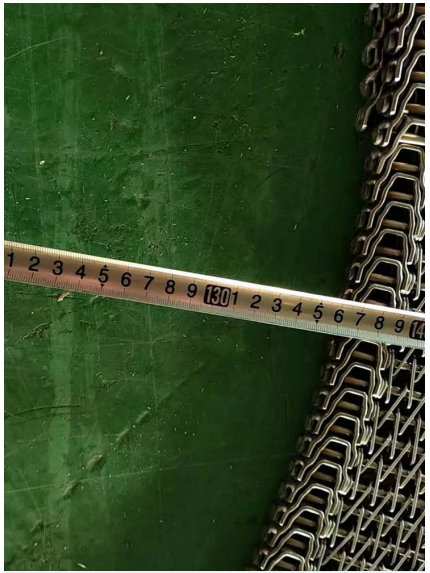

Did it arrive as it was packed?
→ page 4

Is everything there? → page 5

Which section goes on first?
→ page 6

Is it the belt that was tested?
→ page 8

Projects: Malaysia 2026

Send details → page 13

Before opening: photograph the crates

Compare them with the packing photos sent before shipment, where available.

Libya: crate strapped for export

Spain: eye link belt packed in a crate

USA: crate marked (details blurred)

Libya 2025, Spain 2026, USA 2024

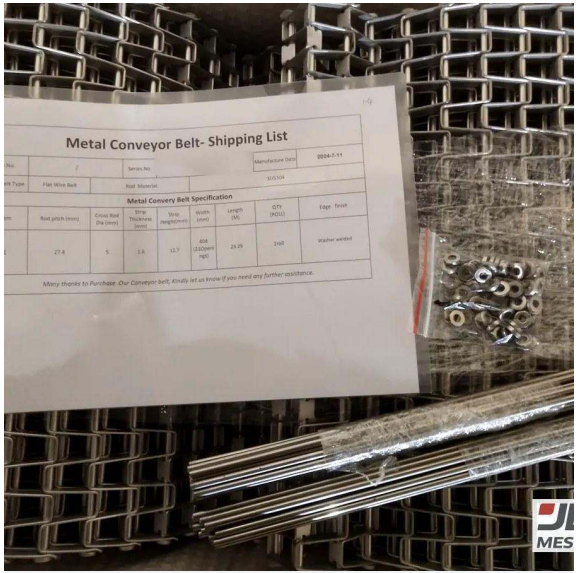

See: Packing & Export Protection

Check the contents against the list

Rolls, sections and spare parts are named on the packing list.

Packing list on the roll

Spare rods and washers listed

Roll and a laid-out length

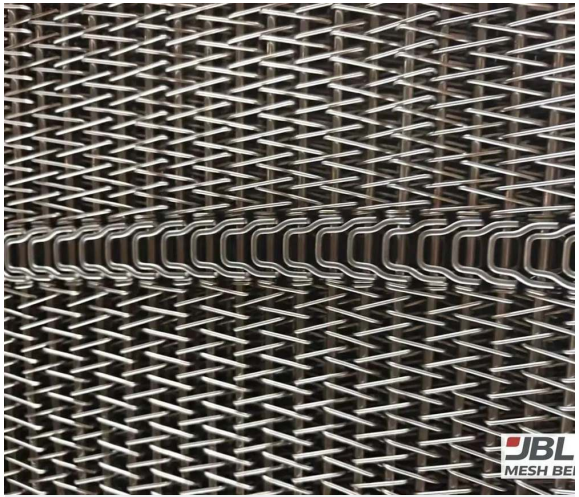

USA 2024, Australia 2025

See: Export Documents & Customs

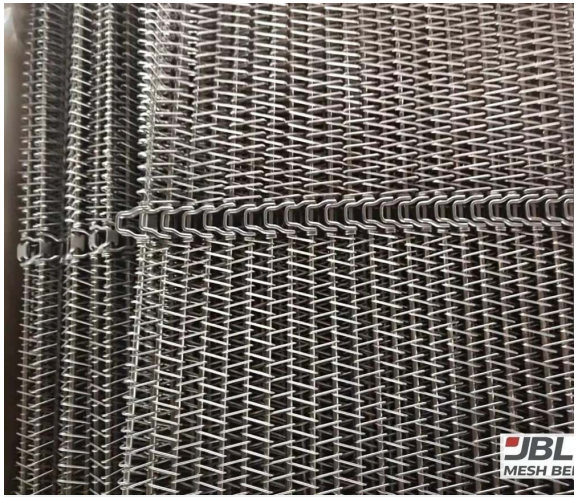

Spiral sections: in number order

Section numbers and running-direction arrows show the order.

3.3 m sections as standard; 0.3 m spare per spiral order.

A section laid flat

Sections laid in order

Packed with spare rods

Malaysia 2026

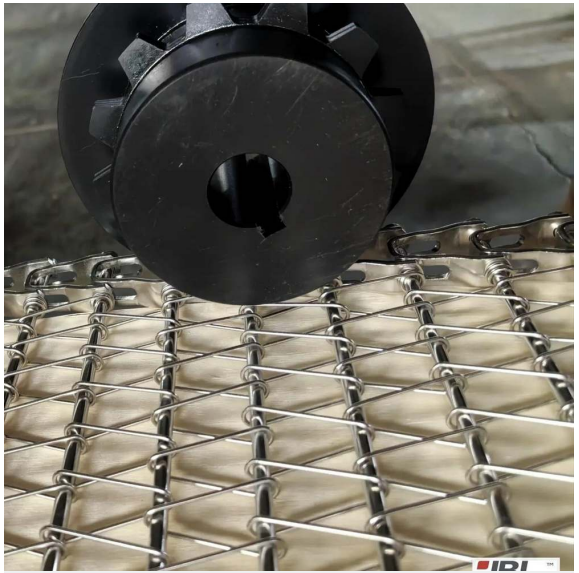

Joining questions → page 11

Sprockets and spare parts

Sprockets packed apart; spare parts in the same crate.

Sprockets in a lined crate

New sprocket on the belt, before packing

Spare rods and washers

Waffle cooling spiral 2026, USA 2024

See: Sprocket Matching

Take one reading the way we did

Read before packing; read it again on site.

Trial run: 19.05 mm (0.750 in)

Bulk belt, before packing: 19.05 mm (0.750 in)

	Before shipment	On site
Rod pitch	**19.05**	**your reading**
How	**Caliper**	**Caliper**
Where	**As in the photo**	**Over ten pitches**

Read pitch over ten pitches for a long belt.

Malaysia 2026

Read pitch over ten → What to Send for a Quote

If something does not look right

Send photos and we review them with you.

Crate marked (details blurred)

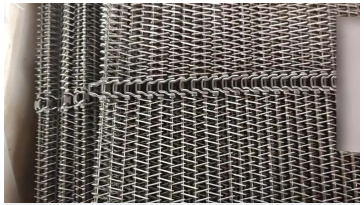

Photograph it	The crate, the packing and the part
Note on the receipt	Visible damage, before signing; crate, roll or section number
Photograph the list	The packing list for that crate
Send it on WhatsApp	+86 138 1487 2506, or info@jblmeshbelt.com
Keep the packing	Until the photos are reviewed

The first run, and the first weeks

Confirm direction first; load comes after a clean slow run.

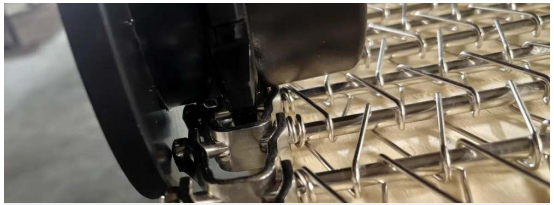

Edge welds, close up

Before the first run	Running direction and orientation confirmed
Slow run, no load	Tracking, turn, sprocket seat, noise, contact
Edge welds	A gloved hand along the inner edge: any catch is a burr
Stop if	Drifting, lifting, jumping, knocking, marks or shavings
First weeks	Drum bars and guides: no new scratches or dark residue

Turn checked before shipment

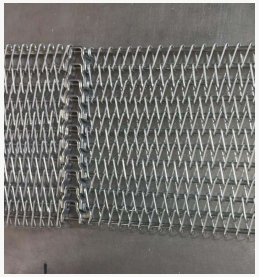

Teeth seated between rods

Send photos and a running video → page 13

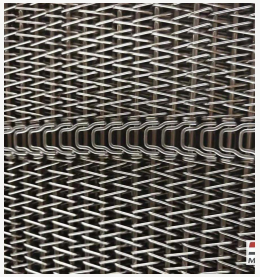

Questions on arrival

Short answers, with the photo pages.

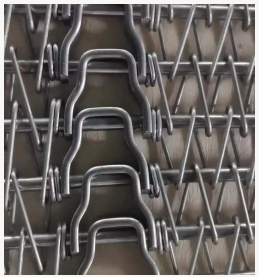

How are sections joined?

Send photos of both ends; we review them with you.

Spare length included?

Spiral orders include a 0.3 m spare length.

Can I see the test again?

Where photos or video were sent before shipment, you can review them.

Who do I contact?

WhatsApp +86 138 1487 2506 or info@jblmeshbelt.com.

Projects: Malaysia 2026

Send us these on arrival → page 13

Who you work with, and how each project runs.

Spring Liu

Sales Director · 16 years in metal conveyor belts

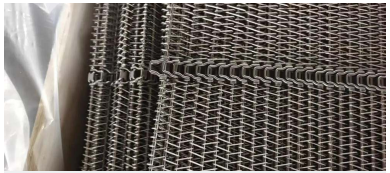

WhatsApp +86 138 1487 2506

JBL Mesh Belt is a brand of Jin Bei Li Metal (Suzhou) Co., Ltd. — Suzhou, China, since 2015.

1. Drawing or old belt reviewed before quoting
2. Sample or trial section confirmed before production
3. Readings and photos until delivery

Tested: before the crates closed

Packed: sections in order

Listed: rolls and crates

Projects: Malaysia 2026, USA 2024

Send details → page 13

On arrival, send us these

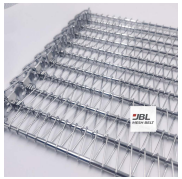

Send photos and we review them with you.

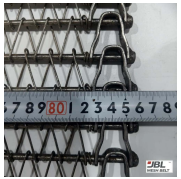

1 **Crates, before opening**

2 **Packing list against the contents**

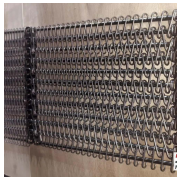

3 **Section numbers and arrows**

4 **Close-up of anything that looks wrong**

5 **One reading on site**

6 **Both belt ends, if joining**

Send it on WhatsApp
